

## Panoramio Survey Results

For the Panoramio survey I utilized four questions:

1. Was the tutorial easy to follow?
2. Did you successfully view a variety of photos on the Panoramio site?
3. Did you find the tutorial handout useful?
4. Do you have any recommended changes to the tutorial?

The results of the survey are as follows:

1. 100% of all participants agreed that the tutorial was easy to follow.
2. 100% of all participants were able to view photos. Many looked at pictures of their hometowns, old residences or old elementary schools. It was great to watch them reminisce. They were surprised at how easy it was to find the photos.
3. 100% of all participants found the handout helpful. They thought the arrows and text boxes helped them easily follow the next step.
4. All agreed no changes were needed.

This site was one of the easiest sites to navigate. The staff loved the availability of the numerous photos. The time spent finding old places that held meaning to them was wonderful. They printed pictures, showed off old schools or childhood homes. They started sharing great ideas of ways to use in the classroom, sort of doing the same thing. Since we have so many students from other places, they wanted to have students find their old schools or hometowns and share them as well. They looked at ways to map it out from Bluffton to the students former living areas.
